

Mobile Application Development

Practical No. 27

Develop a program to send and receive email.

Send & Receive Email:-

1. activity_main.xml :-

```
<?xml version="1.0" encoding="utf-8"?>
<LinearLayout
    xmlns:android="http://schemas.android.com/apk/res/android"
    android:orientation="vertical"
    android:padding="20dp"
    android:layout_width="match_parent"
    android:layout_height="match_parent">

    <EditText
        android:id="@+id/etTo"
        android:hint="Recipient Email"
        android:inputType="textEmailAddress"
        android:layout_width="match_parent"
        android:layout_height="wrap_content"/>

    <EditText
        android:id="@+id/etSubject"
        android:hint="Subject"
        android:layout_width="match_parent"
        android:layout_height="wrap_content"/>

    <EditText
        android:id="@+id/etMessage"
        android:hint="Message"
        android:minLines="3"
        android:layout_width="match_parent"
        android:layout_height="wrap_content"/>

    <Button
        android:id="@+id/btnSend"
        android:text="Send Email"
        android:layout_width="match_parent"
        android:layout_height="wrap_content"/>

    <Button
        android:id="@+id/btnInbox"
        android:text="View Inbox (Demo)"
        android:layout_width="match_parent"
        android:layout_height="wrap_content"/>

    <TextView
        android:id="@+id/tvInbox"
        android:text="Inbox will appear here"
        android:padding="10dp"
        android:layout_width="match_parent"
        android:layout_height="wrap_content"/>
```

</LinearLayout>

2 - MainActivity.java

```
package com.example.practical27;

import androidx.appcompat.app.AppCompatActivity;

import android.content.Intent;
import android.os.Bundle;
import android.widget.*;

public class MainActivity extends AppCompatActivity {

    EditText etTo, etSubject, etMessage;
    Button btnSend, btnInbox;
    TextView tvInbox;

    @Override
    protected void onCreate(Bundle savedInstanceState) {
        super.onCreate(savedInstanceState);
        setContentView(R.layout.activity_main);

        etTo = findViewById(R.id.etTo);
        etSubject = findViewById(R.id.etSubject);
        etMessage = findViewById(R.id.etMessage);
        btnSend = findViewById(R.id.btnSend);
        btnInbox = findViewById(R.id.btnInbox);
        tvInbox = findViewById(R.id.tvInbox);

        // SEND EMAIL
        btnSend.setOnClickListener(v -> {
            String to = etTo.getText().toString();
            String subject = etSubject.getText().toString();
            String message = etMessage.getText().toString();

            Intent intent = new Intent(Intent.ACTION_SEND);
            intent.setType("message/rfc822");
            intent.putExtra(Intent.EXTRA_EMAIL, new String[]{to});
            intent.putExtra(Intent.EXTRA_SUBJECT, subject);
            intent.putExtra(Intent.EXTRA_TEXT, message);

            try {
                startActivity(Intent.createChooser(intent, "Send Email"));
            } catch (Exception e) {
                Toast.makeText(this, "No Email App Found",
                    Toast.LENGTH_SHORT).show();
            }
        });

        // RECEIVE EMAIL (DEMO)
        btnInbox.setOnClickListener(v -> {
            String demoEmails =
                "Inbox:\n\n" +
                    "1. From: teacher@gmail.com\nSubject: Assignment\n\n" +
                    "2. From: friend@gmail.com\nSubject: Hello!\n\n" +
                    "3. From: company@gmail.com\nSubject: Interview Call";
```

```
        tvInbox.setText(demoEmails);  
    });  
}
```

- **Output:-**

The screenshot shows a mobile application interface for sending an email. At the top, the status bar displays the time 10:10 and various icons. Below the status bar, there are two input fields: the first is for the email address, containing 'akshaywaghmode38@gmail.com', and the second is for the subject, containing 'Subject'. Below these fields is a text input area with the text 'Hii'. Underneath the text input area are two purple buttons: 'Send Email' and 'View Inbox (Demo)'. Below the buttons, the text 'Inbox will appear here' is displayed. At the bottom left of the screen, there is a circular button with a hamburger menu icon (three horizontal lines). The entire interface is set against a light purple background.
